Education

Bachelor of Science (BS) in Web and Mobile Computing May 2026
Rochester Institute of Technology | Rochester, NY GPA 3.97
Honors: Outstanding Undergraduate Scholar, Honors Program, ENGAgE Research Scholar, Dean's List
Leadership: UX Club, Vice President

- Managed club operations, facilitated design workshops, and built a collaborative learning environment where members shared knowledge across experience levels.

Technical Skills

Web: React, Next.js, HTML, CSS, Tailwind CSS, REST APIs, SQL, WordPress, Shopify, Firebase
Languages: Python, TypeScript, JavaScript, PHP, Swift, Kotlin, Java, C++, C#
AI & Developer Tools: Claude, Claude API, GitHub Copilot, Git, GitHub, Visual Studio, IntelliJ, Figma, Jira, Asana
Design & Other: Adobe Creative Suite, Unity, Arduino IDE, Autodesk Inventor

Work History

Design Co-Op January 2026 - Current
Linden Digital Marketing Rochester, NY

- Developed custom client websites and pages on WordPress and Shopify utilizing CSS, PHP, and JavaScript for custom solutions; implemented plugins and managed database-backed functionality.
- Supported the full client lifecycle from onboarding and requirements gathering through development, testing, and launch, ensuring performance, responsiveness, and accessibility across devices.
- Developed AI-powered internal tools to automate accessibility workflows and streamline cross-team requests through Claude API, Asana, and Google Calendar integrations.

Teaching Assistant August 2023 - December 2025
Rochester Institute of Technology Rochester, NY

- Supported 30+ students across introductory Python, HTML, CSS, and JavaScript courses through lectures and office hours, guiding them in debugging code and reinforcing programming fundamentals.
- Provided timely, constructive feedback on 600+ assignments while maintaining grading records and ensuring accurate submission through the university grading system.
- Promoted best practices in accessibility, code readability, responsive design, and problem-solving to help students build maintainable software.

Software Engineer Intern June 2024 - August 2024
Charles River Development Burlington, MA

- Migrated 25+ automated UI test cases into API-driven tests using the team's internal testing framework, improving test maintainability and execution efficiency.
- Strengthened financial domain concepts such as portfolio management and trades, and how they integrate with the software systems and their application interfaces.

Projects

forME | *Figma, HTML, CSS, JavaScript, APIs* March 2023

- Built a mobile application within 24 hours focused on educating women on the current mental health medications and birth control available on the market.
- Implemented an OpenFDA API and worked on the JavaScript and HTML of the different site tabs for overall functionality and connectivity.
- Placed 1st for WiCHacks 2023 Hackathon M&T Best UI/UX Winning Project, designing and developing with an emphasis on inclusivity/accessibility.
